TECHSOMMET

Break Through with Networking!

Drug Discovery and Development Virtual Summit

📅 **24th January 2023**

🕐 **10:00 AM ET**

About the event

Techsommet's event on Drug Discovery and Development is a unique platform for industry leaders around the globe to discuss how technology is bringing a change in the life science and pharma industry and what are the future and current implications of technology like AI/ML, Big data, automation tools, etc have on the Pharmaceutical industry.

This event on Drug Discovery brings together key decision makers across the industry to discuss how drug discovery and developments can change the healthcare and pharma industry Keynote session, panel discussion, on, and panel discussion and networking session.

The themes that will be covered include:

ML and Biology

Power of AI in Drug Discovery
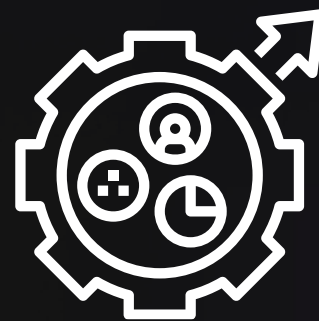

Biomarker Discovery

Neurology

Oncology

Rare Disease

3D Metrology

Cell and Gene Therapy

Chronic Disease

Some of the discussion topics include:

1. Harnessing the power of AI to accelerate clinical identification and pursuit of promising therapeutic targets to treat disease.

2. Integrating technological innovations across biology, chemistry, automation, machine learning, and engineering to industrialize drug discovery.

3. Unlocking the Secrets of Protein Motion

4. How Big Pharma Adopts AI To Boost Drug Discovery

5. Automation in the Clinical Laboratory

TECHSOMMET

Delegates joining us include

CXOs, VPs, Directors, and Head Managers of:

Drug Discovery
Drug Development

Precision Medicine
Proteomics

Oncology
Antibody Drug Development

Cancer Drug Discovery
Medicinal Chemistry

Cell Therapy
Immunology

Cardiovascular
General Medicine

AI and Data Analytics R&D
Dermatology

Innovation and Emerging
Science

Industries joining

● Healthcare

● Biotechnology

● Pharmaceuticals

● Life Science

● Universities

Address:
30N Gould St STE R
Sheridan WY, 82801, US
